Election/Restrictions

1. Newly submitted claims 41-43 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: They are directed to process of making an elastic article while the previously presented claims are directed to a product and process of using the product. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product as claimed in the previously presented claims can be made by another materially different process, such as core/shell polymerization by emulsion wherein the core comprises the claimed active ingredient.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 41-43 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 112

2. Claims 16-20, 22-26, 29, 30, and 32-40 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 16, the terms "brightener", "bleach activator", "fabric softener", fabric conditioner, "effervescence system", "fabric care ingredient", "pharmaceutical ingredient",

and "cosmetic ingredient" render the claim indefinite because the metes and bounds set forth by these terms cannot be ascertainable. These terms require an object upon which an intended effect as the terms suggested can be produced in order to ascertain their scope. For example, with regard to the term "brightener", an object that is brightened needs to be defined. Is it skin, teeth, fabric, paint, etc...? Or with regard to the term "fabric care ingredient", it is unclear what property of the fabric is being "cared" for; is it fabric softening, fabric brightening, color-preservation, etc...? Even in these narrower aspects, their scope is still unclear. The specification fails to provide such definition for these terms, and thus the claim is indefinite.

Claim 30 suffers the same deficiency of claim 16 with regard to the terms "cleaning composition", "fabric care composition", "personal care composition", "cosmetic composition" and "pharmaceutical composition".

Other claims are deemed indefinite in view of their dependency upon claim 16.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to H. T. Le whose telephone number is 571-272-1511. The examiner can normally be reached on 10:00 a.m. to 6:30 p.m., Mondays to Friday.
